CGPA - 7.4

PROFILE

Frontend Developer with 2+ years of experience building responsive and scalable web applications using React.js and Next.js. Focused on performance optimization and cross-device compatibility, while expanding expertise in Node.js and Flutter.

WORK EXPERIENCE

Frontend Developer (React Js, Next js, Flutter)
VSD Technologies Pvt. Ltd. - SAP Gold Partner
September 2024 - Present

- Developed and deployed web and mobile applications using React.js, Next.js, and Flutter, improving responsiveness and user engagement across devices.
- Optimized front-end performance, reducing page load times by 20% and enhancing overall user experience.
- Implemented bug fixes and redesigned UI components, resulting in a smoother workflow and better usability.
- Collaborated with cross-functional teams to deliver scalable and maintainable solutions aligned with client requirements.

Frontend Developer (React Js)
Identixweb Limited
March 2023 - July 2024

- Built Shopify apps for shipping rate automation and wholesale pricing, reducing manual errors by 30% and improving pricing accuracy.
- Designed and implemented a GST management app in React.js and Material UI, streamlining accounting and tax compliance.
- Improved application performance by restructuring components and optimizing reusable code.
- Worked closely with product managers and backend developers to ensure seamless integration of APIs and third-party services.

Frontend Developer Intern
Provitious Technologies
July 2022-December 2022

- Contributed to live projects by building responsive UI components in React.js and CSS.
- Assisted in debugging and improving front-end workflows, enhancing project delivery speed.

PROJECTS

Rate By Zipcode (React.js, HTML, CSS, Shopify Polaris):
Developed a Shopify app that automated shipping rate calculations by weight and distance, reducing manual effort and improving checkout accuracy.

Wholesale Hero & B2B Pricing (React.js, HTML, CSS, Shopify Polaris):
Built a Shopify app for wholesale pricing and bulk discounts, helping merchants save time and improve pricing flexibility.

Munnim ERP System (React.js, HTML, CSS, Material UI, Reactstrap):
Complete suite of accounting and GST management software.

MyBankLoan (Web App):
Built with **React.js, Next.js, HTML, CSS, and Reactstrap** to simplify loan management, tracking, and visualization..

MyBankLoan (Mobile App):
Developed in **Flutter** for loan management; maintained, fixed bugs, and redesigned the app for better usability.
